## **Middle School CTE Safety Agreement**

## PURPOSE

CTE Classes are hands-on, laboratory classes. Some of these activities may have potential hazards. We will use some equipment that may be dangerous if not handled properly. Safety in our classroom is an important part of the STEM process. To ensure a safe classroom, a list of rules has been developed and is called the CTE Safety Agreement. These rules must be followed at all times. Additional safety instructions will be given for each activity.

No student will be allowed to participate in hands-on activities until this agreement has been signed by both the student and a parent or guardian.

## SAFETY RULES

1. Conduct yourself in a responsible manner at all times in the classroom. Horseplay, throwing items, running, practical jokes, and pranks will not be tolerated.

2. Follow all written and verbal instructions carefully. Ask your teacher questions if you do not understand the instructions.

3. Do not touch any equipment, supplies or other materials in the room or operate any machinery without permission from the teacher.

4. Perform only authorized and approved experiments. Do not work with tools or other equipment when the teacher is out of the room.

5. Never eat, drink, chew gum, or taste anything during lab activities.
